CRSA and VIP Purchasing Select Status Solutions as Emergency Response Partner

Charlottesville, Va., July 22, 2008 — Status Solutions, provider of the Situational Awareness and Response Assistant (SARA), announces a new agreement with CRSA Communities and VIP Purchasing. The agreement has been initiated with the recent purchase of their enabling technology solution by CRSA community Longhorn Village in Austin, Texas. By utilizing SARA this new retirement community will provide residents with safety and satisfaction by increasing awareness of events as they occur, as well as future activities.

CRSA provides a full range of professional services to develop, market, manage and finance retirement communities for investors, owners and sponsors committed to providing a quality lifestyle for senior adults. CRSA manages senior living communities nationwide. After extensive analysis, Status Solutions' SARA has been selected as CRSA's Emergency Response System of choice for potentially all CRSA communities.

"We did the due diligence necessary to determine that SARA is, in our opinion, the best system to provide the most value for our communities. SARA's expandable platform, which includes extensive integration capability and broadcast communication, allows the technology to grow with our communities now and in the future," comments Bill Sherrard, CRSA's VP Purchasing & Operations Development and President of VIP Purchasing.

About Status Solutions and SARA:

Status Solutions is a provider of vertical market solutions to the senior housing, education and government markets. Status Solutions is the developer of the SARA system which provides heightened awareness to these markets and their distinct requirements. Status Solutions accomplishes this through providing a state-of-the-art monitoring and alerting solution along with an established and expanding library of integrations to existing systems.

With a combination of skills in computer telephony integration, as well as practical experience in the delivery of monitoring and notification tools, Status Solutions is a focused growing company, with customer satisfaction as their top priority. Based on the success of customers located across the United States, Status Solutions doubled in size in 2007, and is continuing along a similar growth path in 2008.

SARA is an automated alerting system which through a simple to use text to speech engine can send voice and text alerts to in-building pagers, email and telephones, as well as to cell phones, home phones and external email. This allows both staff and residents to be notified of important events at any time, any place. Staff members can quickly address safety and security concerns or environmental problems before they turn into emergencies.
